# Platform 200 CSOIUT.ONS Adopted by the Republican State Convention held at Virginia Cy, Nevada, September 4th 1890. The record of the Republican party is its best platform. No political party in human history has taken such advanced positions Resolved. That as at the coming election the question as to whether or not a Continuation as to see the continuation as to se Platform and Resolutions

has taken such advanced positions a bass of services performed, deer associated the equality of races, none has so medded the administration of authorit to the needs of business, none has so managed the affairs of a State as to encourage the development and settlement of a continent, none has elevated a nation and so contributed to the comfort and happiness of man, none has so honestly and economically car-

ried on the routine duit's of office .. In all things it has been the direct opposite of the Democratic party. Grand in its ambitions and impulses, firm and resolute in its consistency, strong in its devotion to principle, it is now, as it has been from its berth, the representative of all that is best and noblest in its own country and hope and promise of a better future for the human race.

Its battles for human rights, its preservation of the Union, its abolition of slavery, its protection to labor, its elevation of manufacturers, its upholding of the national credit, its efforts in behalf of honest financial methods, its homestead system and its devotion to popular education have made for it the greatest record of any political organization this or any other country ever had.

The names of its heroes are legion, and the deeds of Fremont, Lincoln, Grant and Garfield will shrine like

electric lights on the pages of history. The Republicans of Nevada, in convention assembled, heartily indorse the acts of the flfty-first Congress, which has made greater advances in correct and needed legislation than any since the war.

The crime of filibustering, so often resorted to by the Democratic party for the purpose of defeating legislation and blocking the wheels of government, has been done away with by the genius of Reed, McKinley and their associates, and the offenders taught that congressman are paid by the people for making laws and not bad politics.

It had, by a strictly party vote, placed the silver question on a basis that will lead naturally to free coinage and disarm all opposition among

financiers. It has taken up the work of a readjustment of the tariff in a patriotic and business-like way, such as will protect the interest of labor and at the same time encourage capital to enterprise that will furnish it with employment at good wages.
